

Project of the month May **2006**

Wallstreet Park Plaza , Berlin - Germany

The newly opened Wallstreet Park Plaza is a contemporary four-star hotel, located in the heart of Berlin's historic centre close to 'Alexander Platz' and the Government building 'Reichstag'. Located among extraordinary architectural constructions, the new luxury hotel is occupying a stunning position in the city.

The modern design hotel offers a total of 167 deluxe rooms all furnished to meet demands of luxury and comfort.

Individuality has been assigned a key role in the decoration of the entire hotel. Inspired by the famous New York Stock Exchange, the theme of the hotel offers its guests a truly unique atmosphere.

We create more than carpets

In close cooperation with ege's design team, extraordinary carpet designs have been created. In some of the rooms of the hotel, carpet designs created as oversized, American, one dollar bills decorate the floor, and in both the 'twenty-three Wallstreet' restaurant and the 'rule405' bar and lounge area, the theme of the American metropolitan is carried on in the interior.

Creating a distinguished hotel profile is important. Style, individuality and comfort should form a synthesis. By choosing ege® as carpet supplier for your project, you are offered an endless number of design possibilities which truly make each space in the hotel stand out.
